About me

I am a Computer Engineering student at FIUBA, seeking my first professional experience in IT. I want to apply the knowledge I have gained during my studies while continuing to learn in a professional environment. I am committed, motivated, and eager to contribute through teamwork.

Academic education

- Computer engineering - Facultad de Ingeniería, Universidad de Buenos Aires
2022 - present
- High School education - Colegio Nacional de Buenos Aires
Orientation in Exact Sciences, Natural Sciences and Engineering
2014 - 2019

Courses

- Full Stack Web Programming Course - Digital House
2023 - 2024
- Python Course - Centro de e-learning, Universidad Tecnológica Nacional
2020
Credential link: https://sigead.online/alumnos/validar_certificado
Code CER-QZ5U7ZB0-475250

Skills

- Programming languages: Python, Java, Smalltalk, C++, Javascript, Scala, Prolog
- Frameworks and libraries: Flask, Node.js, Express.js
- Programming paradigms: Object Oriented Programming (OOP), Functional Programming, Logic Programming
- Database handling: SQL
- Tools and methodologies: Software Engineering (modularity, TDD, design heuristics), Git, Github, agile methodologies (SCRUM)
- Soft skills: teamwork, communication, problem solving, learning ability, adaptability, proactivity, organization

Languages

- English (conversational)
- Spanish (native)
